

U measuring strip

U is the EIA-310 standard unit of measure for designating the vertical usable space, or height of racks and cabinets. This unit of measurement refers to the useable internal space between the mounting angles of a rack. 1U is equal to 44.45mm (1.75 inches).

U strip is a self adhesive labelling system which is stuck directly onto the mounting angles to assist with identification of a specified location when installing equipment within the cabinet.

Sold in sets of two strips with numbering starting at the base (1U) up to a maximum of 48U heights - cut to size as required.

Technical data

USystems U measure strips

Part number	Length	Comprising	Suit cabinet
RA0-0254-AB	1-48U	2 strips	All styles

Materials and finish

50 micron polypropylene tape with firm acrylic adhesive and 100 micron backing paper laminated to 180 micron

Black with white numbering and U indication lines
