

USystems Limited

RoHS Certificate of Compliance

EU Directive 2011/65/EU restricts the use of 6 substances below in the manufacture of specified types of electrical equipment.

Whilst this restriction does not legally apply to components, it is recognised that component 'compliance' is relevant to many customers.

USystems definition of RoHS Compliance:

- The product does not contain any of the restricted substances in concentrations and applications banned by the Directive,
- And for components, the product is capable of being worked on at the higher temperatures required by lead-free soldering

The restricted substances and maximum allowed concentrations in the homogenous materials are, by weight:

Substance	Concentration
Lead	0.1%
Mercury	0.1%
PBB (Polybrominated Biphenyls)	0.1%
PBDE (Polybrominated Diphenyl Ethers)	0.1%
Hexavalent Chromium	0.1%
Cadmium	0.01%

As the supplier of the item listed below, we have taken all reasonable steps to confirm that the product is RoHS Compliant

USystems part No	RA0-0003-AA, RA0-0005-AA
Description	Rack mount fan tray
Manufacturer/Brand	USystems
Manufacturers part No's	RA0-0003-AA, RA0-0005-AA

The foregoing information relates to product sold on, or after, the date shown below.
